

Wright Stuff Science Olympiad

Wright Stuff Science Olympiad - Ward's Science Official Science Olympiad Kits - These are the only officially licensed kits from Science Olympiad, Inc. allowed to use the 2019 Rules and specifications Wright Stuff Training CD Problem Solving-Tech Learning CD (contains Wright Stuff) Wright Stuff is a Division B event for the 2017 and 2018 seasons and a Division C event for the 2019 season. The event involves making, testing, and flying an airplane powered by a twisted rubber band, with the goal of achieving the longest flight duration. In flying events in Science Olympiad (Wright Stuff, Gliders, Flying Bird, Helicopters, etc) it is sometimes necessary to curve balsa wood to get a desired shape for the outline or a rib of your wing. This demonstration shows one way to achieve a significant curve. the Science Olympiad Wright Stuff event. For Wright Stuff competition, the simplest arrangement is to have a removable wing and keep everything else fixed. There is only one good way to remove a wing for transport and replace it for flying. That way is to have sockets or tubes in the fuselage and balsa dowels on the wings
